Easily research market conditions and perform your investment due diligence.

PROJECT DETAILS

Receive a snapshot of zoning, obstacles, surrounding developments, boundaries, flood plains, hydro lines and more.

NEWS

Stay informed of land development events with private and public newsfeeds and our Newsletter.

WHY CHOOSE US?

☑ Perform robust data searches for land and ownership information.

☑ Virtually walk sites to measure, evaluate, and plan without heading to the site.

☑ Bring reality to your projects with map and aerial imagery.

☑ Conduct field investigations on land use from your office.

☑ Spend less time gathering data and more time closing the deals.

ABOUT US

Developed by a land professional for land professionals, **landproDATA** provides a data-driven mapping tool that gives Engineers and Planners the comprehensive, accurate GIS data, visuals, and reports you need. Our web-based solution allows you to gather information quicker, keep your customers happy, and not miss the latest news for team projects. Anytime. Anywhere.
